Users submit print jobs from anywhere using any device

Users can choose from four print submission methods

The documents are processed and encrypted in the PrinterOn Cloud

The documents are pulled down from the cloud where they wait to be released

TIPS

- Documents to be printed should be resident on the device you're printing from; the service doesn't work well with documents stored in the cloud. If you're trying to print from the cloud, use the cloud services app to sync the document or download it to your device first.
- Multiple copies or differing paper sizes/types are not available through this service; standard 8½ x 11 paper only.
- Using the Apple Map function to locate a printer won't find all the printers at a location. Please use these instructions to accurately find a printer.
- Delaware Public Libraries charge a minimal fee for printing: 50¢ per color page and 20¢ per black and white page.
- See the Reference staff member at your print location if you have any questions or issues.
